About Us:

Established in year 2002, Biomatik provides high quality research products and

Biomatik Corporation

Published on Bioscience Technology (<http://www.biosciencetechnology.com>)

services to worldwide life science researchers in their innovation and discovery. Your one stop for Bio-Reagents, Custom Gene, Peptide, Protein and Antibody Services. We offer industry-leading innovation, quality and customer-satisfaction.

Featured Custom Services

- Custom Oligo Synthesis
- Custom Gene Synthesis
- Custom Peptide Synthesis
- Custom Protein Production
- Custom Antibody Production

Bio-Reagents

- BioChemicals & Enzymes
- PCR, qPCR & RT-PCR products
- Bio-Kits
- DNA/Protein Markers
- Culture Media
- Tag Antibodies

Catalog Products

- ELISA Kits
- Kinase Inhibitors
- Catalog Peptides
- Recombinant Proteins
- Catalog Antibodies

It is important to us to help save research costs while maintaining high quality standards, and complete customer satisfaction; in doing so, our customers as well as our organization have benefited. This benefit has resulted in increased competitiveness, growth, and name recognition within our industry, which we believe is the true reward of quality performance.

We understand your research needs are unique. This is why we believe we are only successful when we deliver optimum products and services to your unique research projects. Our strategic long-term focus has enabled us to become a trusted partner to our customers. We invite you to join our list of satisfied customers worldwide.
