About Us:

Blue Mountain Quality Resources is the leading developer of industry standard asset management products and services—designed exclusively for the life sciences industry.

Manage GMP compliance, increase your productivity, and drive profitability by incorporating our industry standard Blue Mountain RAM calibration, maintenance,

Blue Mountain Quality Resources, Inc.

Published on Bioscience Technology (<http://www.biosciencetechnology.com>)

and validation products into your systems and processes. Founded in 1989 by bioengineer Jim Erickson, Blue Mountain offers a complete, integrated solution from set-up to installation and from training to validation for medical device, pharmaceutical, and biotech companies of any size or scope—including multi-site enterprises. While we serve a diverse group of corporations worldwide, we are also dedicated to our local community.
