

Cleanroom Lab Coat

The Kimtech Pure A7 Cleanroom Lab Coat from Kimberly-Clark Professional provides enhanced chemical and biological protection and superior contamination control for cleanroom environments.

Available in bulk packaging, the lab coats are easy to don and doff. Features include:

- An advanced barrier fabric

Cleanroom Lab Coat

Published on Bioscience Technology (<http://www.biosciencetechnology.com>)

- Low lint to reduce contamination risk
- Elastic wrist and thumb loops - for full wrist coverage
- Extra-long sleeves - to help keep gloves in place
- High mandarin collar - to reduce the risk of contamination
- Recyclable through the RightCycle program

The Kimtech Pure A7 Cleanroom Lab Coat can be diverted from landfills through RightCycle by Kimberly-Clark Professional, the first large-scale recycling program for non-hazardous lab and cleanroom waste.
